

### Activity 4 – Worksheet

The following patients are very sick, they have been involved in serious accidents and have suffered from extensive bleeding. We need you to help us to decide which blood transfusion they can receive.

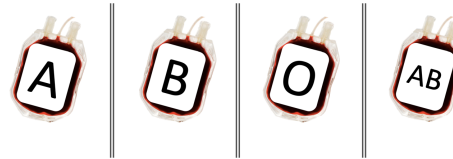

**Remember that they cannot receive any blood cells with antigens their body does not recognise!**

Patient 1:

Has blood **group A**

She has A Antigens: ▲

Circle the transfusion should she receive.

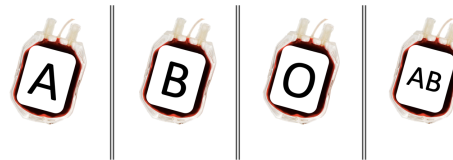

Patient 2:

Has blood **group O**

He has no antigens

Circle the transfusion should he receive.

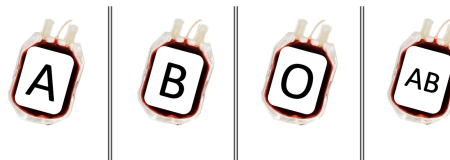

Patient 3:

Has blood **group AB**

He has A and B antigens: ▲ ●

Circle the transfusion should she receive.
