

# Major Trauma Rehabilitation Online Masterclass Series

We are delighted to invite you to the quarterly PAN London Rehab Network expert masterclass series

**Session 3** hosted by the South West London Major Trauma Network: Complex MSK polytrauma rehabilitation – what can we achieve?

Date & Time: Thursday 18<sup>th</sup> April 2024 17.00 – 18.30

Location: Online via Zoom

To book go to: [Major Trauma Rehab Online Masterclasses 2023-4 | London Trauma School](#)

Open to all professionals with an interest in rehabilitation after Major Trauma and keen to push rehabilitation boundaries.

## Outline

The SWL Major Trauma Network are pleased to share with you a case study of an individual who sustained complex musculo skeletal injuries. His story includes an intensive care stay, numerous complex skeletal injuries, a stroke, periods of non-weight bearing and high-level rehabilitation needs.

We shall focus on his journey, ward transitions, inter-disciplinary communication, and ultimately what can be delivered for patients with complex musculoskeletal rehabilitation needs. We shall explore how timing, intensity and dose of rehabilitation can facilitate improved recovery times, function and reduce the possible presentation of anxiety and depression associated with limited physical function and delayed access to rehabilitation.

We hope to facilitate discussion and interaction about current service delivery and how we have collaborated positively with the legal and private sector services.

## Panel

**Stephen Friend** – Consultant Physiotherapist in Major Trauma, St George's Hospital

**Paul Marshall-Taylor** – Principal Occupational Therapist in T&O

**Jo McCarthy** – Highly Specialised Occupational Therapist

**Beth Kenny** - Highly Specialised Physiotherapist in T&O
